SUMMARY

Full Stack Developer with 3+ years of experience crafting responsive web apps and robust backend systems. Proficient in JavaScript, React, Node.js, and cloud tech (AWS, Azure, Vercel). Driven by curiosity, creativity, and a passion for turning ideas into impactful solutions.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Java, HTML/CSS, C++, SQL, GraphQL
Frameworks/Tools: React, Prisma, Node.js, Next.js, Firebase, Express.js, Tailwind, Git, Postman
Database/Cloud: PostgreSQL, MongoDB, SQL Server, Firebase DB, Vercel, AWS, Azure

EXPERIENCE

Coding Instructor
Mar 2023 – May 2024
Wize Computing Academy — *Flowermound, TX*
– Taught high school students core programming concepts and algorithms using Java in an engaging, digestible way.
– Translated complex computer science topics into accessible lessons, improving task completion rates to 90%.
– Led hands-on workshops with CodeWiz, fostering real-world problem-solving and collaborative learning.

Back End Developer Intern
Aug 2022 – Dec 2023
SkyLark — *Richardson, TX*
– Developed drone-mapping backend with Python, Node.js, and REST APIs to support real-time flight data.
– Integrated GPS and SQL datasets into custom dashboards, streamlining field operations and tracking.
– Engineered backend pipelines and collaborated with 4 cross-functional teams to deliver full-stack features.

Software Engineer Intern
Jan 2022 – Jun 2022
AutoBids — *New Jersey*
– Deployed scalable backend systems for auction app with 95% bug-free performance.
– Pitched platform to dealerships, captured feedback, and led rapid iteration cycles.
– Resolved front-end and back-end bugs using JavaScript, React, and Node.js, enhancing usability.

PROJECTS

Airbnb Clone
Next.js, TypeScript, MongoDB, Tailwind CSS, NextAuth.js, REST API
– GitHub | Live Demo
– Implemented authentication and authorization using NextAuth.js, demonstrating robust user protection.
– Developed responsive front-end interfaces with Next.js and Tailwind CSS, ensuring seamless experiences.
– Integrated MongoDB and Cloudinary for data management and optimized media loading, enhancing performance.

Twitter Clone
React, Firebase, Tailwind CSS, Google Auth, Firestore
– GitHub | Live Demo
– Built real-time interactive UI using React and Firebase for dynamic user engagement.
– Implemented Google Authentication via Firebase, ensuring secure user access.
– Optimized data loading with Firebase listeners, improving app responsiveness.

Netflix Clone
React, Firebase, Tailwind CSS, TMDB API, Firestore
– Designed intuitive streaming UI using React and Tailwind CSS for enhanced user interaction.
– Integrated Firebase Authentication, providing secure and personalized user experiences.
– Leveraged TMDB API for dynamic content fetching, optimizing performance and load times.

EDUCATION

University of Texas at Dallas
Richardson, TX
B.S. in Computer Engineering
Aug 2024
